PENNSYLVANIA HIGH-SPEED MAGLEV PROJECT

www.maglevpa.com

Port Authority of Allegheny County invites you to attend public meetings regarding the Environmental Impact Statement for the Pennsylvania High-speed Maglev Project*.

The purpose of the meetings is:

- To display, for public review, the criteria that will be used to screen alternative alignments.
- To provide the public with the opportunity to review the alternative alignment refinements.
- To provide the public with information about potential MAGport™ station locations.
- To educate and gain input from the public.

The Pennsylvania Project

The proposed Pennsylvania High-speed Maglev Project is a 47-mile high-speed magnetic levitation transportation system from Pittsburgh International Airport to Greensburg with MAGport™ stations located at the Airport, Downtown Pittsburgh, Monroeville and Greensburg. The system would take passengers from Greensburg to the Airport in under 28 minutes.

This project is the initiative of MAGLEV, Inc., a private for profit company, which has advanced the High-speed Maglev Project for more than a decade. The Pennsylvania High-speed Maglev Project is a public/private partnership between Port Authority of Allegheny County, MAGLEV, Inc., and the Pennsylvania Department of Transportation in cooperation with the Federal Railroad Administration.

* Officially referred to as the Pennsylvania Project of the Magnetic Levitation Transportation Technology Deployment Program
